Characteristics:

Welcome to the new Kingdom! Kingdom creeping bentgrass (*Agrostis stolonifera*) is a new generation bentgrass with aggressive lateral growth and less top growth allowing it to spread without growing tall. Kingdom has finely-textured blades with excellent turf quality and has proven itself over 10 years of breeding development. It is now available in the market as part of Jacklin's bentgrass line-up.

Adaptation: Kingdom is suited to greens, tees, approaches, and fairways. It thrives across the cool, temperate regions of the world, and it is adapted well into the transition zone between warm and cool-season areas.

Seeding Rate: New Seeding: 1-2 lbs. per 1000 ft² (5-10 g/m²)
Interseeding: 2-4 lbs. per 1000 ft² (10-20 g/m²)
