DESCRIPTION: AN ALL PURPOSE FERTILIZER ENRICHED WITH 9% IRON & 11% SULFUR

BENEFITS: BEST® 9-IRON MINIS 9-9-9:

- Is a Homogeneous Pellet providing a 1:1:1 ratio of Nitrogen, Phosphorus, and Potassium.
- The mini sizing is great for close cut turf and supplies more than twice the amount of pellets than a standard grade
- Contains all of the Potash in the Sulfate form, to aid the turf manager where chlorides may be of concern.
- Helps overcome Chlorosis, a yellowing of leaves often caused by iron deficiency.
- Is an iron-rich fertilizer that helps to form Chlorophyll for greener plants and turf.
- Is a highly acidifying formulation to improve Alkaline soil.
- The iron in 9-Iron Minis is part of a homogeneous pellet which virtually eliminates the possibility of staining concrete.
